How it Works:

Enter the booth and once you and your friends are ready, four consecutive pictures will be taken moments apart. Then exit the booth and receive your photos! One strip per person will be printed up to four people per sitting. Split them with your friends or add them to a scrapbook.

Send us your organization's Name, Logo or whatever you'd like in JPEG format and we will have your photo strips customized for your event! Photo strips are 2" X 6".

Our unique set-up allows you to entertain nearly 100 participants per hour.

Our spacious photo booth measures 5' X 5' and stands over 6' tall. It is wheelchair accessible and has room for all your friends.
